Agenda

- 1. Current Solutions Overview**
- 2. Digital Solution Types and Examples**
- 3. Safe Access**
- 4. Call to Action**

The Big Problem

80% of people are not currently engaging in normal out of home activities

61% of those people don't trust business locations* and businesses have inadequate tools to rebuild and maintain trust and provide a safe return to work, school, and play

Even when a much-anticipated vaccine arrives, it is likely to only suppress but never completely eradicate the virus. We will probably be living with this virus for the rest of our lives.**

**McKinsey Study, 5 June 2020, **The Atlantic, 4 August 2020*

Current Solutions

HELP STOP THE SPREAD HEALTH SCREENING QUESTIONS

- 1 Have you been in close contact with a confirmed case of COVID-19?
- 2 Are you experiencing a cough, breath, or sore throat?
- 3 Have you had a fever in the last 24 hours?
- 4 Have you had a new loss of taste or smell?
- 5 Have you had vomiting or diarrhea in the last 24 hours?
- 6 Are you currently waiting for a COVID-19 test?

NOTE: Members will not be allowed to enter the facility until test results are pending.

[Home](#) / 20/21 Winter Updates

A Message From General Manager, Tim Silva

Dear Valued Pass holders and Guests,

All of us here at Sun Valley Resort are looking forward to the upcoming winter in the air. Weather dependent, our plan is to open Bald Mountain as tradition on December 26th and follow with Dollar Mountain on December 12th. The entire resort a winter operating plan that ensures a safe and enjoyable experience, and some of our key thoughts and assumptions regarding the upcoming winter.

A shared responsibility for health and safety

Of greatest importance is the health of our team members, guests and community. Our priority will require the best efforts of our resort team, our pass holders and independently. We assume that the current health mitigation strategies rely through the winter, which includes the requirement of facial coverings in public areas.

WOOD RIVER COMMUNITY YMCA

[View Online Schedules](#) and [Reserve a Time](#) »

SCHEDULES

The Y is open with limitations for your safety.

Check out our online classes from your favorite instructors!

In order to limit the number of guests in any one area, we are requiring reservations to all areas of the YMCA.

During the Current Stage of Reopening

-Who are feeling their best

We are now allowing short term passes however are not able to honor guest or Y away visits yet.

Your first reservation will include a 10-15 min member re-orientation. At your re-orientation you will be required to fill out specific paperwork to enter the facility. Feel free to review the paperwork and/or print, sign, and bring with you on your first visit back.

**If you are reserving a 60-min YMCA workout on the fitness floor, the reservation will show up as 15 min however you are reserved for an hour of workout time. You may sign up for a time slot up to a week out from the desired day.*

-WORKOUT-

60-Min YMCA WORKOUT Reservations

60-Min YMCA INDOOR SPORT COURT Reservations

reservations for INDOOR sport court will begin November 7th

Current Solutions

1. **Signage**
2. **Manual Temp and Health Screening**
3. **Individual Websites**
4. **Email/Text Notifications**
5. **Online Scheduling**
6. **Testing Result Websites**

Digital Solution Types

Tracking and Tracing

Health Screening

Location Management

Environmental Sensors

Tracking and Tracing

- | | |
|------------------------|--------------------------------|
| 1. Contact Tracing: | Apple, Google, |
| 2. Contact Tracking: | EB Systems, Enlighted |
| 3. Proximity Tracking: | EB Systems, Enlighted |
| 4. Occupancy Tracking: | Density, EB Systems, Enlighted |

Good: Track occupants by location and day

Better: Track occupants by space and exact times

Best: Sensor contact tracking for all visitors

Health Screening

- | | |
|---------------------------------|-------------------------------------|
| 1. Symptom Screening: | SafeAccess, Healthy Roster, Clear |
| 2. Temperature Checking: | Thermometers, Kiosks, Face Scanning |
| 3. Individual Risk Assessment: | CDC, Apple, SafeAccess |
| 4. Testing Status & Scheduling: | Sharemy.Health, Testing Companies |
| 5. Health Passport: | Sharemy.Health, Testing Companies |

Good: Symptom Screening

Better: Symptom Screening + Temperature Checking

Best: Symptom Screening + Temp + Individual Risk Assessment

Location Management

- | | |
|----------------------------------|---|
| 1. Access Control | Envoy, ADT, Others |
| 2. Policy Management: | SafeAccess |
| 3. Physical Space Safety: | UVC, Ionization, Etc: System Integrators |
| 4. Notifications: | Too many to count |

Good: Clear Policies Posted + Code Air Ventilation + Cleaning

Better: Policy Enforcement + Increased Air + Enhanced Cleaning

Best: Better + Ionization + UVC + Sensors

Environmental Sensors

- | | |
|--------------------------------|-----------------------|
| 1. CO2 Sensors: | Senseware, CO2 Meter |
| 2. Viral Load Sensors: | EnviralTech |
| 3. Occupancy Sensors: | Density, EB Systems |
| 4. Indoor Positioning Sensors: | Enlighted, EB Systems |

Good: CO2

Better: CO2 + Occupancy Sensors

Best: Indoor Positioning Sensors + Viral Load Sensors

The Mountain Town Problem

Location Practices and Policies Are Unknown, Inconsistent, Untracked, and Manual

Contact Tracing is One Sided, Invasive, and/or Incomplete

Creating low risk locations is expensive, hard to define, and hard to manage

There isn't a way for businesses and the community to build and market trust uniformly and consistently

SafeAccess Solution
